

INFECTION PREVENTION STUDY DAY SERIES (NO. 1) FOR RESIDENTIAL CARE ADELAIDE, TUESDAY 27 MARCH 2012 9.00AM – 4.00PM

This annually held event is the first of three study days designed for residential care staff who have recently assumed the role and responsibility for infection prevention and control in their facility. The study day topics will equip Link/Liaison/Resource/Portfolio holders with the knowledge, problem solving skills and critical thinking ability to provide leadership and act as a role model to other health care workers, residents and visitors with regard to infection prevention and control principles and practices.

ESTABLISHING & MAINTAINING AN EFFECTIVE INFECTION PREVENTION & CONTROL PROGRAM

Learning Outcomes:

- Describe Commonwealth accreditation requirements and minimum standards
- Apply the standards to the surveillance, prevention and control of infection in the residential care setting
- Identify key elements of an effective program
- Demonstrate knowledge relating to access to infection prevention and control resources

BACK TO BASICS OF INFECTION PREVENTION AND CONTROL

Learning Outcomes:

- Describe the chain of infection
- Use risk management and resident-centred approaches
- Apply principles of infection prevention and control to the residential care setting
- Identify infection prevention and control strategies

BUILDING ON THE BASICS OF INFECTION PREVENTION AND CONTROL

Learning Outcomes:

- Define the residential care environment
- Apply infection prevention and control principles to cleaning, laundry and food handling practices

SPEAKER:

The study day will be presented by well-known Infection Prevention Consultant Megan Reilly. Megan is a registered general nurse with a Certificate in Infection Control obtained from Fremantle Hospital (1988). She obtained her Bachelor of Nursing at Edith Cowan University in 1999 and Masters in Health Science (Infection Control) at Griffith University in 2002 with first class honors. In addition, Megan has a Certificate IV in Assessment and Workplace Training, Immunisation Competency Certificate and is a credentialed infection control professional (CICP). Megan has 23 years' experience working in the area of infection prevention and control in the acute, community, residential and office-based practice health care setting. Her business Hands-On Infection Control provides a variety of infection prevention consultancy, education and immunisation services to corporate, health and human service organisations in Western Australia, Queensland, South Australia, New South Wales, Victoria and the ACT.
