

INFECTION PREVENTION STUDY DAY SERIES (NO. 3) FOR RESIDENTIAL CARE PERTH, MONDAY 29 OCTOBER 2012 9.00AM – 4.00PM

This annually held event is the final study day in the series designed for residential care staff who either assume the role and responsibility for infection prevention and control in their facility or who are proactive in minimising the risk of infection in susceptible residents and staff. The study day will equip staff with knowledge that can be applied to the prevention and control of infection in the residential care environment. Useful references and resources will be provided to assist with this process.

THE BUG STOPS HERE! – A GUIDE TO HAND HYGIENE AND PPE (Barriers, Indications, Methods, Improving compliance)

Learning Outcomes:

- Identify the barriers to hand hygiene
- Describe the indications for hand hygiene practices and techniques
- Select and utilise PPE correctly

INFLUENZA PREPAREDNESS IN 2013 – PROTECT, PREVENT AND CONTROL

(Seasonal influenza, Flu vaccination, Outbreak preparedness)

Learning Outcomes:

- Describe the influenza disease process
- Identify prevention and control strategies
- Prepare and plan for an influenza outbreak

INFECTION PREVENTION RELATED STAFF HEALTH ISSUES

(Pre-employment screening, Immunisation, Sharps and body fluid exposures, Work restrictions/exclusions)

Learning Outcomes:

- Describe staff health considerations
- Identify key steps in the management of sharps and body fluid exposures
- Give examples of infections/infectious diseases that may restrict/exclude staff from work

SPEAKER:

The study day will be presented by well known Infection Prevention Consultant Megan Reilly. Megan is a registered general nurse with a Certificate in Infection Control obtained from Fremantle Hospital (1988). She obtained her Bachelor of Nursing at Edith Cowan University in 1999 and Masters in Health Science (Infection Control) at Griffith University in 2002 with first class honors. In addition, Megan has a Certificate IV in Assessment and Workplace Training, Immunisation Competency Certificate and is a credentialed infection control professional (CICP). Megan has 23 years experience working in the area of infection prevention and control in the acute, community, residential and office-based practice health care setting. Her business Hands-On Infection Control provides a variety of infection prevention consultancy, education and immunisation services to health and human service organisations in Western Australia, Queensland, South Australia, New South Wales, Victoria and the ACT.
