

INFECTION PREVENTION STUDY DAY FOR COMMUNITY CARE PERTH, MONDAY 10 SEPTEMBER 2012 9.00AM – 4.00PM

This study day is designed for community care staff who either assume the role and responsibility for infection prevention and control in their service/organisation or who are proactive in minimising the risk of infection in susceptible clients and staff. The study day topics will equip participants with the knowledge, problem solving skills and critical thinking ability to provide leadership and act as a role model to other health care workers, clients and carers with regard to infection prevention and control principles and practices.

STUDY DAY TOPICS

Implementing the Australian Guidelines for the Prevention of Infection in Health Care 2010

Standard and Transmission-Based Precautions

Hand Hygiene Australia

Staff Health Infection Prevention Related Issues

Waste Management

Laundering, Environmental Cleaning & Food Safety

SPEAKER:

The study day will be presented by well-known Infection Prevention Consultant Megan Reilly. Megan is a registered general nurse with a Certificate in Infection Control obtained from Fremantle Hospital (1988). She obtained her Bachelor of Nursing at Edith Cowan University in 1999 and Masters in Health Science (Infection Control) at Griffith University in 2002 with first class honors. In addition, Megan has a Certificate IV in Assessment and Workplace Training, Immunisation Competency Certificate and is a credentialed infection control professional (CICP). Megan has 23 years' experience working in the area of infection prevention and control in the acute, community, residential and office-based practice health care setting. Her business Hands-On Infection Control provides a variety of infection prevention consultancy, education and immunisation services to corporate, health and human service organisations in Western Australia, Queensland, South Australia, New South Wales, Victoria and the ACT.
